1 Introduction

Deliverable 7.6 is a deliverable in the category “other”. The deliverable, “UrbanFlood video”, is placed on Youtube. See link: <http://www.youtube.com/watch?v=03B6HTRg0ug>

This is the complete version that gives an overview of the project. Other cuts can and will be made for other purposes.

1.1 UrbanFlood

UrbanFlood is a project investigating the use of sensors within flood embankments to support an online early warning system, real time emergency management that UrbanFlood is developing. It is a project under the EU 7th framework Programme which started in December 2009 and will run for 3 years. Partners of UrbanFlood include TNO Information and Communication Technology, the University of Amsterdam and STOWA (Dutch acronym for the Foundation for Applied Water Research) from the Netherlands; HR Wallingford in the UK, ACC Cyfronet AGH in Poland and OOO Siemens in Russia.
